Abbot, J., see Townsend, A.T. 97

Acosta, D.R., see Aguilar-Rios, G. 25

Aguilar-Rios, G., Valenzuela, M.A., Armendariz, H., Salas, P., Dominguez, J.M., Acosta, D.R. and Schifter, I.
Metal-support effects and catalytic properties of platinum supported on zinc aluminate 25

Aguinaga, A. and Montes, M.
Regeneration of a nickel/silica catalyst poisoned by thiophene 131

Anshits, A.G., see Voskresenskaya, E.N. 209

Armendariz, H., see Aguilar-Rios, G. 25

Baiker, A., see Curry-Hyde, H.E. 183

Barbaux, Y., Dekiouk, M., Le Maguer, D., Gengembre, L., Huchette, D. and Grimblot, J.
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51

Barbaux, Y., see Dekiouk, M. 61

Barbier, Jr., J., Marsollier, F. and Duprez, D.
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11

Barnes, P.A., see Dawson, E.A. 217

Bhat, Y.S., see Parikh, P.A. 1

Boisdron, N., see Dekiouk, M. 61

Choudhary, V.R., Sansare, S.D. and Mamman, A.S.
Low-temperature selctive oxidation of methane to carbon monoxide and hydrogen over cobalt–MgO catalysts L1

Curry-Hyde, H.E. and Baiker, A.
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183

Dawson, E.A. and Barnes, P.A.
A new approach to the statistical optimization of catalyst preparation 217

Dekiouk, M., see Barbaux, Y. 51

Dekiouk, M., Boisdron, N., Pietrzyk, S., Barbaux, Y. and Grimblot, J.
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61

Dominguez, J.M., see Aguilar-Rios, G. 25

Dooley, K.M. and Ross, J.R.H.
Potassium/calcium/nickel oxide catalysts for oxidative coupling of methane 159

Duprez, D., see Barbier, Jr., J. 11

Gengembre, L., see Barbaux, Y. 51

Gnofam, N., see Lemberton, J.L. 175

Goldwasser, M.R., see Torrealba, M. 35

Gorte, R.J., see Pereira, C. 145

Grimblot, J., see Barbaux, Y. 51

Grimblot, J., see Dekiouk, M. 61

Guisnet, M., see Torrealba, M. 35

Halgeri, A.B., see Parikh, P.A. 1

Huchette, D., see Barbaux, Y. 51

Hughes, A.E., Pratt, K.C. and Tsai, P.
Examination of de-coking of promoted (Co, Ni) $Mo/\gamma\text{-}Al_2O_3$ catalysts by X-ray photoelectron spectroscopy 117

Khan, A.Z. and Ruckenstein, E.
Oxidative coupling of methane over alkali metal chloride promoted zirconia. Effect of the preparation pethod 199

Kurteeva, L.I., see Voskresenskaya, E.N. 209

Le Maguer, D., see Barbaux, Y. 51

Lemberton, J.L., Gnofam, N. and Perot, G.
Effect of the zeolite content on the hydrodenitrogenation of 1,2,3,4-tetrahydroquinoline over sulphided NiMo on alumina catalysts 175

Mamman, A.S., see Choudhary, V.R. L1

Marsollier, F., see Barbier, Jr., J. 11

Montes, M., see Aguinaga, A. 131

Parikh, P.A., Subrahmanyam, N., Bhat, Y.S. and Halgeri, A.B.
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1

Pereira, C. and Gorte, R.J.
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145

Perot, G., see Lemberton, J.L. 175

Perot, G., see Torrealba, M. 35

Pietrzyk, S., see Dekiouk, M. 61

Pratt, K.C., see Hughes, A.E. 117

Ross, J.R.H., see Dooley, K.M. 159

Ruckenstein, E., see Khan, A.Z. 199

Salas, P., see Aguilar-Rios, G. 25

Sansare, S.D., see Choudhary, V.R. L1

Schifter, I., see Aguilar-Rios, G. 25

Subrahmanyam, N., see Parikh, P.A. 1

Thorat, T.S., Yadav, V.M. and Yadav, G.D.
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts

73
Torrealba, M., Goldwasser, M.R., Perot, G. and Guisnet, M.
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
Townsend, A.T. and Abbot, J.
Catalytic cracking of tetralin on HY zeolite 97
Tsai, P., see Hughes, A.E. 117
Valenzuela, M.A., see Aguilar-Rios, G. 25
Voskresenskaya, E.N., Kurteeva, L.I. and Anshits, A.G.
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Yadav, G.D., see Thorat, T.S. 73
Yadav, V.M., see Thorat, T.S. 73

Subject Index

Acetone
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61

Acidity
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145

Alkali metal chloride
Oxidative coupling of methane over alkali metal chloride promoted zirconia. Effect of the preparation pethod 199

Alkali nickel oxide
Potassium/calcium/nickel oxide catalysts for oxidative coupling of methane 159

Amine adsorption
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145

Ammonia formation
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11

Ammonia oxidation
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183

Bismuth oxide
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209

Brønsted acidity
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145

BTX conversion
Examination of de-coking of promoted (Co, Ni) $Mo/\gamma\text{-}Al_2O_3$ catalysts by X-ray photoelectron spectroscopy 117

Catalyst characterization (BET, TPR, HRTEM, EELS, XRD)
Metal–support effects and catalytic properties of platinum supported on zinc aluminate 25

Catalyst characterization (XMPA, XPS)
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51

Catalyst preparation (thermal treatment)
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73

Ceria
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11

Chromium oxide
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183

Cobalt–magnesium oxide
Low-temperature selctive oxidation of methane to carbon monoxide and hydrogen over cobalt–MgO catalysts L1

Cracking
Catalytic cracking of tetralin on HY zeolite 97

para-Cymene
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1

De-coking
Examination of de-coking of promoted (Co, Ni) $Mo/\gamma\text{-}Al_2O_3$ catalysts by X-ray photoelectron spectroscopy 117

Dehydrogenation
Metal–support effects and catalytic properties of platinum supported on zinc aluminate 25

Dioctyl phthalate
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73

Doped bismuth oxide
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209

Erbium
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209

Fluid catalytic cracking
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35

HDS
Examination of de-coking of promoted (Co, Ni) Mo/γ-Al_2O_3 catalysts by X-ray photoelectron spectroscopy 117
Heteropoly acids
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73
HY zeolite
Catalytic cracking of tetralin on HY zeolite 97
Hydrodesulphurization
Examination of de-coking of promoted (Co, Ni) Mo/γ-Al_2O_3 catalysts by X-ray photoelectron spectroscopy 117
Hydrogen transfer
Catalytic cracking of tetralin on HY zeolite 97
Hydrogenation
Regeneration of a nickel/silica catalyst poisoned by thiophene 131
Hydrothermal treatment
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
Iron-phosphorus oxide
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51
Iron-phosphorus oxide
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
Isobutyric acid oxydehydrogenation
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
Isomerization
Catalytic cracking of tetralin on HY zeolite 97
Kinetics
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
Lattice oxygen defects
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Lithium
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Methacrylic acid
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51
Methacrylic acid
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
Methane oxidation
Low-temperature selctive oxidation of methane to carbon monoxide and hydrogen over cobalt–MgO catalysts L1
Methane oxidative coupling
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Methane oxidative coupling
Oxidative coupling of methane over alkali metal chloride promoted zirconia. Effect of the preparation pethod 199
Methane oxidative coupling
Potassium/calcium/nickel oxide catalysts for oxidative coupling of methane 159
MFI metallosilicates
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1
Model reaction
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
Morphology
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183
Nickel
Regeneration of a nickel/silica catalyst poisoned by thiophene 131
Nickel oxide
Potassium/calcium/nickel oxide catalysts for oxidative coupling of methane 159
Nitric oxide reduction
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183
Nitrogen formation
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11

Oxydehydrogenation
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51
Phthalic anhydride esterification
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73
Platinum
Metal–support effects and catalytic properties of platinum supported on zinc aluminate 25
Propene
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
Reduction of nitrates
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11
Regeneration
Regeneration of a nickel/silica catalyst poisoned by thiophene 131
Rhodium
Reduction of nitrates by dihydrogen in CeO_2 and Rh/CeO_2 catalysts 11
Samarium
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Selectivity (nitrogen, nitrous oxide)
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183
Silica–alumina
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145
Sol-gel
Oxidative coupling of methane over alkali metal chloride promoted zirconia. Effect of the preparation pethod 199
Solid acids
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73
Solid solutions
Solid solutions of bismuth oxide as promising catalysts for oxidative coupling of methane 209
Structure sensitivity
Catalytic reduction of nitric oxide over amorphous and crystalline chromia. II. Structural dependence of selective and non-selective reactions 183
Superacids
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73
Support effects
Metal–support effects and catalytic properties of platinum supported on zinc aluminate 25
Surface analysis
Bulk and surface analysis of a Fe–P–O oxydehydrogenation catalyst 51
Surface passivation
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1
Syngas
Low-temperature selctive oxidation of methane to carbon monoxide and hydrogen over cobalt–MgO catalysts L1
Temperature-programmed desorption
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145
Tetralin
Catalytic cracking of tetralin on HY zeolite 97
Thermogravimetric analysis
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145
Thiophene poisoning
Regeneration of a nickel/silica catalyst poisoned by thiophene 131
Toluene isopropylation
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1
USHY
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
Vanadium
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35

Water
Kinetic investigation of the oxidative dehydrogenation of isobutyric acid on a Fe–P–O catalyst: Role of water 61
X-ray photoelectron spectroscopy
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
X-ray photoelectron spectroscopy
Examination of de-coking of promoted (Co, Ni) Mo/γ-Al_2O_3 catalysts by X-ray photoelectron spectroscopy 117
Zeolite β
Toluene isopropylation over zeolite β and metallosilicates of MFI structure 1
Zeolites
Influence of vanadium on the physicochemical and catalytic properties of USHY zeolite and FCC catalyst 35
Zeolites
Method for distinguishing Brønsted-acid sites in mixtures of H-ZSM-5, H-Y and silica–alumina 145
Zeolites
Catalytic cracking of tetralin on HY zeolite 97
Zinc aluminate spinel
Metal–support effects and catalytic properties of platinum supported on zinc aluminate 25
Zirconia
Esterification of phthalic anhydride with 2-ethylhexanol by solid superacidic catalysts 73
Zirconia
Oxidative coupling of methane over alkali metal chloride promoted zirconia. Effect of the preparation pethod 199
